SWAMI TOURS & TRAVELS - GUHAGAR, RATNAGIRI, MUMBAI

Netlify Deployment & Hosting Complete Guide

Complete step-by-step instructions for deploying and running your live website

---

1. OVERVIEW & CURRENT PROJECT STRUCTURE

Your project is a high-performance modern static web application optimized for Vite & Netlify.
Key files ready for production deployment:

- index.html (Main Home Page with 22 Routes, Fare Estimator & Modal Quote Popup)
- netlify.toml (Netlify Build & Routing configuration file)
- _headers (Production security headers: X-Frame-Options, Strict SSL, Referrer)
- package.json & vite.config.ts (Vite high-speed bundle compiler)
- assets/ (CSS styles, JavaScript business logic, images, icons)
- Legal pages: privacy-policy.html, terms-and-conditions.html, disclaimer.html

2. STEP-BY-STEP NETLIFY DEPLOYMENT METHODS

You can deploy your website on Netlify in two very simple ways:

METHOD A: Direct Drag & Drop (Fastest - 1 Minute, No Git Required)

Step 1: On your machine, run the build command in terminal: npm run build
Step 2: This creates a production-ready folder named 'dist/' containing all optimized files.
Step 3: Open your web browser and go to: https://app.netlify.com
Step 4: Sign in or create a free Netlify account using your Email or Google account.
Step 5: Go to the 'Sites' tab and scroll down to 'Want to deploy a new site without Git?'.
Step 6: Simply drag and drop your 'dist' folder into the upload dropzone box.
Step 7: Netlify will immediately upload and launch your website with a free HTTPS .netlify.app link!

METHOD B: GitHub Continuous Deployment (Recommended for Automatic Updates)

Step 1: Upload your project files to a GitHub repository (e.g. github.com/your-name/swami-tours).
Step 2: Log in to Netlify, click 'Add new site' -> 'Import an existing project'.
Step 3: Select 'GitHub' and authorize Netlify to access your repository.
Step 4: Select your repository. Netlify will auto-detect the configuration from netlify.toml.
Step 5: Click 'Deploy Swami Tours'. Every future code push will auto-update your live site!

3. NETLIFY BUILD CONFIGURATION SETTINGS

If Netlify asks you for build settings manually during setup, enter these exact values:

- Base directory: (leave blank / root)
- Build command: npm run build
- Publish directory: dist
- Functions directory: (leave empty)

Netlify Forms, Custom Domain & WhatsApp Integration

---

4. CONNECTING YOUR CUSTOM DOMAIN (e.g. www.swamitours.com)

You can easily link your custom domain (purchased on GoDaddy, Namecheap, or Hostinger):

Step 1: In your Netlify dashboard, navigate to Site Configuration -> Domain Management.

Step 2: Click 'Add custom domain' and type your domain name (e.g. swamitours.in).

Step 3: Update your DNS Records in GoDaddy / Hostinger with these values:

* A Record: Point '@' to 75.2.60.5 (Netlify Load Balancer IP)
* CNAME Record: Point 'www' to your-site-name.netlify.app

Step 4: Netlify will automatically generate a 100% Free SSL Certificate (HTTPS) within minutes!

5. RECEIVING BOOKING ENQUIRIES VIA NETLIFY FORMS

Your index.html booking form is pre-configured with Netlify Forms integration:

- The form includes name='swami-booking' and data-netlify='true' attributes.
- Whenever a visitor submits a booking on your site, Netlify catches it automatically.
- To receive instant Email notifications whenever someone submits a booking:
  1. Open Netlify Dashboard -> Site Configuration -> Forms.
  2. Click 'Add notification' -> 'Email notification'.
  3. Enter your email (tawaderushi173@gmail.com).
  4. You will get immediate email alerts with customer pickup, drop, and phone number!

6. FARE ESTIMATOR & DRIVER ALLOWANCE SUMMARY (UPDATED)

Your live estimator is configured with 22 routes and the simplified driver allowance slabs:

- Distance up to 500 km: Driver Allowance = Rs 1,500
- Distance above 500 km: Driver Allowance = Rs 2,000
- Applicable for both Round Trip and One-Way Drop options.
- Direct 1-Click WhatsApp booking linked directly to: +91 70838 08483.

7. SUPPORT & BUSINESS DETAILS

- Business Name: Swami Tours & Travels (Guhagar, Ratnagiri, Mumbai Hub)
- Primary Contact: +91 70838 08483
- Fleet: Black Ertiga (6+1), White WagonR (4+1), 20 & 26 Seater Force Tempo Travellers
- Deployment Ready File: Netlify configuration verified and compiled.
